◇ DAYS 7-8

Puerto Madryn

Granted UNESCO World Heritage status as a marine sanctuary in 1999, Península Valdés is the world's most important breeding ground for endangered southern right whales. Our arrival coincides with the height of whale season, optimizing our chances for spotting these magnificent creatures in their natural environment. Set out by local boat to seek out whale calves and their often-curious mothers, which can grow up to 50 feet long. Set foot on secluded beaches frequented by southern elephant seals, nesting Magellanic penguins, and frolicking sea lions. Scan the shores for orcas, which are known to beach themselves here to hunt for prey. Take a Zodiac cruise or kayak along the coast to observe an abundance of wildlife, such as blue-eyed and rock cormorants, Magellanic penguins, sea lions, and more. Seek out these rare marine species and discover the reserve’s unique geology. Later, at a local museum in Puerto Deseado, learn about the famous explorers who passed this way and peruse a collection of well-preserved artifacts retrieved from the shipwrecked H.M.S. *Swift*, a British sloop of war that sank in 1770. White-sand beaches, soaring cliffs, windswept moors, and swaying tussock grass set a stunning natural backdrop to encounters with thriving wildlife-from thousands of gentoo, rockhopper, and Magellanic penguins to black-browed albatrosses, elephant and fur seals, and sea lions hauled out on rocks. Enjoy a variety of excursions with our naturalists and take in sweeping views at every turn.

Meals included: breakfast, lunch, dinner

◇ DAYS 14-15

At Sea

As we journey across these southern waters, deepen your understanding of this far-flung region. Learn about the history of Antarctic exploration and join our naturalists on deck to identify seabirds soaring overhead.

South Georgia Island

Spend five incredible days exploring the spectacular coastlines and abundant wildlife of South Georgia. Our schedule is flexible, and we anticipate opportunities to walk, hike, kayak, or explore by Zodiac most days. Take in unforgettable wildlife spectacles: the antics of elephant seals, leopard seals, and fur seals; cliffs inhabited by hundreds of nesting albatrosses; and shores peppered with tens of thousands of king penguins. Our stops may include visits to the abandoned whaling station at Grytviken, which played a part in the extraordinary story of Sir Ernest Shackleton’s ill-fated expedition and is now the explorer’s final resting place, as well as Stromness Bay, where Shackleton, Tom Crean, and Frank Worsley finally reached help after a year and a half stranded in Antarctica.

Meals included: breakfast, lunch, dinner

◇ DAYS 21-22

National Geographic Endurance

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
