## High Arctic Archipelago: Canada and Greenland

Explore the icy reaches of the High Arctic on a grand polar adventure that traces the icy shores of Northern Greenland and Arctic Canada. Sail into dramatic fjords, narrow straits, and breathtaking bays, and call on remote villages where Inuit communities have lived off the land for centuries. Search for the mighty polar bear, musk ox, and other iconic wildlife from whales to walrus.

## Day by day

### DAY 1

#### Reykjavík, Iceland

Arrive in Reykjavík. Enjoy a morning excursion in the Reykjavík region as your first introduction to the land of Fire and Ice. After lunch, check into your centrally-located hotel in Reykjavík, and enjoy exploring the quaint capital city streets at your leisure.

**Arrival Time:** Arrive by 10:00 a.m.

**Arrival City:** Reykjavík, Iceland

Meals included: dinner, lunch

### ◇ DAY 2

#### Reykjavík / Kangerlussuaq, Greenland / Embark Ship

Fly from Reykjavik by chartered aircraft to Kangerlussuaq on Greenland's western coast. Settle into your cabin and enjoy a scenic sailing through the dramatic gorge of the Kangerlussuaq Fjord, 120 miles in length, with its hanging glaciers and striking basalt ribbons.

Meals included: breakfast, lunch, dinner

### ◇ DAY 3

#### Greenland's West Coast and Sisimiut

Upon arrival to Sisimiut, a former whaling port, enjoy your choice of guided walks through the sights and sounds of the village, including Dog Town or Sallinguit, a small island with centuries of history from Inuit culture through colonization and current day industry. In your free time, enjoy a local food tasting, visit the open-air museum, or explore the local artisan workshops.

Meals included: breakfast, lunch, dinner

### ◇ DAYS 4-5

#### Disko Bay

Sail into Qeqertarsuup Tunua, also known as Disko Bay, and be welcomed by floating icebergs calved off the world's most active glacier, Sermeq Kujalleq. Explore Disko Island, the second largest in Baffin Bay. Enjoy a day of expedition activities as conditions permit, including backcountry hiking, photo walks, and naturalist-led botany walks. This evening, we sail away from the Greenlandic Coast and venture to the west and the Canadian Arctic.

Meals included: breakfast, lunch, dinner

### ◇ DAYS 6-12

#### Shores of the Northwest Passage

The Northwest Passage begins in the Davis Strait between Greenland and Canada. Our exploration takes us along the beautiful bays and inlets of Baffin Island's Lancaster Sound, a favorite Inuit hunting and fishing location for hundreds of years. Carved by Ice Age glaciers, Lancaster Sound is also the eastern gateway to the Arctic Archipelago, where European explorers like William Baffin first ventured in the 17th century to search for the Northwest Passage. We continue our exploration of the Canadian High Arctic with a visit to the small Inuit community of Pond Inlet, Nunavut, an area that has been inhabited by Inuit for over 1000 years.

As we continue our exploration into Lancaster Sound, days are spent searching for ringed seals, arctic foxes, walruses, and polar bears, as well as beluga and bowhead whales. Visit Devon Island and take a walk with our ship's archaeologist to learn about the Thule people—ancestors of the modern Inuit—that once inhabited this region.

Meals included: breakfast, lunch, dinner

### ◇ DAYS 13-17

## Exploring the Queen Elizabeth Islands

We explore the ice-laden channels and glacier-carved islands that stretch for hundreds of miles—a stunning display of raw geology. We take our cues from nature in the High Arctic Archipelago: following wildlife, stopping for hikes on the tundra, dropping anchor in a beautiful fjord or an iceberg-strewn bay to explore and kayak amongst massive ice sculptures and soaring cliffs. Sail among the northernmost cluster of islands in the Canadian Arctic Archipelago, learning about the Inuit peoples who have hunted and fished here for thousands of years as well as the famous explorers who have sailed these waters such as Sir John Ross. We will be constantly on the lookout for animals that call this region home, such as ringed seals, arctic foxes, musk oxen, walruses, and polar bears, and beluga and bowhead whales.

Meals included: breakfast, lunch, dinner

### ◇ DAYS 18-22

## Exploring Ellesmere Island and Northern Greenland

Heading ever northward, we make our way up the beautiful and remote east coast of Ellesmere Island. Cruise along scenic Smith Bay (a.k.a. Skog Inlet, named for Leif Skog, Lindblad's own renowned ice captain and world explorer) bordered by a steep wall of mountains, with a glacial ice tongue which pours down the mountains on either side. Be up on the bridge as we search for a patch of "polar bear ice," the mixture of first-year and multi-year sea ice that is the preferred habitat of the ice bears. Our binoculars seek out any small ivory-colored dot on an otherwise white ice surface. With luck, these small dots will be local polar bears exploring the ice and making their way across the landscape of the Arctic Archipelago.

After exploring to the edge of the ice, we turn

our attention eastward to the largest island in the world: Greenland. The shores of northern Greenland continue to challenge explorers and locals alike to carve out their daily lives among some of the most beautiful and harsh conditions. We will kayak in sheltered coves, embark on hikes (when the coast is clear of polar bears), and visit local communities that continue the traditional hunting practices.

Meals included: breakfast, lunch, dinner

### ◇ DAY 23

## Ilulissat

Sail back into Qeqertarsuup Tunua, or Disko Bay, and enjoy an extraordinary cruise aboard local boats among towering icebergs of the UNESCO World Heritage-designated Ilulissat Icefjord. Visit the town of Ilulissat and hike into the Sermermiut Valley, once an Inuit settlement and now the home to a peaceful boardwalk overlooking the Icefjord. This evening, as we sail south along the coast, spend time on the bridge with your naturalists and bridge team, keeping watch for whales and glimpses of the Greenlandic Ice Sheet.

Meals included: breakfast, lunch, dinner

### ■ DAYS 24-25

## Kangerlussuaq / Disembark Ship / Reykjavík, Iceland

Sail back into Kangerlussuaq and disembark the ship. Take an evening charter flight to Reykjavík and transfer to the overnight hotel close to the airport. On our final morning, transfer to the airport for flights home. Breakfast, lunch, and dinner are included on Day 24; breakfast is included on Day 25.

**Departure Time:** Depart anytime.

**Departure City:** Reykjavík, Iceland

<b>Guests</b> 138	<b>Cabins</b> 76

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

*National Geographic Endurance* and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow<sup>®</sup> is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
