◇ DAYS 3-8

Galápagos Islands

Below are a selection of islands we may visit during our expedition. Itineraries are subject to Galápagos National Park regulations.

North Seymour:

Follow coastal trails past playful Galápagos sea lions on this wildlife-rich central island. Continue inland through a silvery forest of endemic palo santo trees, where frigatebirds nest, blue-footed boobies dance, and where we may also encounter prehistoric-looking land iguanas feeding on cactus.

Isabela:

Cross the Equator at Volcán Ecuador, northernmost of Isabela's six great shield volcanoes. Keep an eye out for whales and dolphins, sea turtles, and the elusive ocean sunfish. Over two days, land in the footsteps of Darwin and Melville, and look for wildlife along the wildly eroded volcanic shore.

Fernandina:

One of the most active oceanic volcanoes in the world, Fernandina is the youngest and most pristine island in Galápagos – and home to the strange flightless cormorant, Galápagos penguins, and the largest marine iguanas. Hikes ashore lead across impressive recent lava flows.

Española:

See swallow-tailed gulls, Española mockingbirds, Nazca boobies and, seasonally, the world's only population of waved albatross at this bird paradise, also home to vividly colored marine iguanas. Watch sea lions on the white sand beach, and snorkel offshore at Gardner Bay.

Floreana:

Follow a trail past a rose pink-tinted lagoon sometimes frequented by flamingos. Snorkel among sea lions and abundant fish, or cruise along

Champion Islet by Zodiac. Visit the historic mail barrel at Post Office Bay.

Santa Cruz:

Visit Puerto Ayora, the largest town and headquarters of both the Galápagos National Park and Charles Darwin Research Station. See the monument to Lonesome George, and tour the giant tortoise breeding corrals. Witness the giant tortoises roaming in the wild in the lush, green highlands.

Bartolomé:

Climb the steps to the summit of this 300-foot volcanic wonderland for stunning views. Explore, swim, and snorkel from the beach. Catch a glimpse of Galápagos penguins, one of the world's rarest.

Santiago:

Explore tide pools and look for fur seals sheltered in quiet grottos of black basalt. Swim, snorkel, kayak, and paddleboard along Santiago's spectacular coast, and explore an enchanting coastal forest where Charles Darwin once walked.

Genovesa:

Sail across the Equator to the remote northern realm of the Galápagos into this flooded caldera, home to over one million seabirds. Visit Prince Philip's Steps at the top of the island. Highlights along the trail are many, from Nazca, red- and blue-footed boobies and frigates, to gulls, owls, fur seals, hammerhead sharks, turtles, and manta rays.

San Cristobal:

Search for red-footed boobies and the endemic mockingbird and lava lizard – found only on this easternmost island. Walk along the powdery white sand at a gorgeous beach fronted by iconic Kicker Rock. Explore Baquerizo Moreno, where sea lions thrive in the middle of town.

Meals included: [breakfast, lunch, dinner](#)

◇ DAY 9

Galápagos Islands / Disembark /

The afternoon and evening are at your leisure. You may be able to take advantage of overnight flights home. Ask your expedition specialist about Peru, Quito, and other post-voyage options. Our latest and most family-friendly ship, the *National Geographic Endeavour II* is exceptionally nimble and maneuverable.

Born in the cold waters of Patagonia, *National Geographic Endeavour II* was built for heavy seas. Now, permanently stationed in Galápagos, she comfortably sails the Equator.

A floor-to-ceiling rebuild when she repositioned to the tropics meant she could be crafted to perfectly accommodate the Lindblad style of travel. Where she previously carried 136 passengers, she now accommodates just 96 guests in 52 thoughtfully appointed cabins. She is exceptionally nimble and maneuverable,

with a shallow draft to get up close, great viewing from all public spaces, an expansive open-air observation deck, large windows in cabins and suites, and state-of-the-art tools for exploration including a glass-bottom boat, underwater cameras, video microscope, plus kayaks and stand-up paddleboards.

She replaced the beloved *National Geographic Endeavour*, which donated much of her artwork and her great spirit of camaraderie. Guests have described being aboard *National Geographic Endeavour II* as feeling like a cross between a grand floating hotel and scientific research vessel. She is beyond comfortable, and welcoming to solos, groups, and kids of all ages, and equipped for the up-close and personal explorations that makes Galápagos the trip of a lifetime.

Welcome aboard. From your first sight of the art to the left of the reception desk (part of the pioneering polar art exhibit, *Change*, installed onboard) to the sleek lines and calming neutrals, you can feel the rigors of travel drop away. Ahead: only supreme comfort and the exhilaration of discovery.
