Baja California: A Remarkable Journey

Board small boats and venture into the gray whale birthing lagoons on the Pacific side of the Baja California Peninsula to get up close with these gentle giants. Then, spend over a week in the Gulf of California exploring waters teeming with whales, pods of dolphins, and leaping rays. The wild islands here offer the chance to hike desert arroyos through forests of cacti to revel in the beauty of untamed nature. Revel in Mexico's coastal waters with daily activities that immerse you in the region including Zodiac cruises, kayaking, and snorkeling.

Day by day

■ DAY 1

Loreto / San Carlos / Embark Ship

Arrive in Loreto in early afternoon. Transfer to the port and embark *National Geographic Venture*.

Arrival Time: Arrive before 2:30 p.m. local time.

Arrival City: Loreto, Mexico

Meals included: dinner

◇ DAYS 2-10

Islands of the Gulf of California

Cruise past the spectacular Friars Rocks at Land's End. For those who wish, we can arrange a visit to the historic town center of San José del Cabo. Isla San Pedro Mártir, Los Islotes, Isla San Francisco—these are some of the melodious names of islands scattered throughout this beautiful sea. After decades of exploration here, we are still discovering new places and experiencing exciting events: Bow-riding bottlenose dolphins, sperm whales near our ship, or a pod of fin whales feeding around a convergence zone. The best areas for whale watching remain consistent—the waters south of Isla del Carmen, Canal de Ballenas up north, and near the mouth of Bahía Concepción. Whether on the bridge of the ship, on Zodiacs, or kayaks, we are in prime position to observe them all.

Meals included: breakfast, lunch, dinner

◇ DAY 11

At Sea

Enjoy the ship's amenities, attend expert-led talks, and watch for a wide variety of marine life, including the largest animal on Earth, the blue whale, as we travel north along the Pacific coast of the peninsula.

Meals included: breakfast, lunch, dinner

◇ DAYS 12-13

Laguna San Ignacio

Laguna San Ignacio is a large bay and favored haunt of the gray whales in Baja California. The ship anchors at the mouth of this remote and important locale. We explore the lagoon via local pangas with expert local guides.

For some reason, the whales here seem to be friendlier than they are elsewhere. It is not unusual for mothers and calves to approach our boats, the calves often playing hide and seek—sometimes even welcoming a touch or a friendly chin scratch.

Meals included: breakfast, lunch, dinner

◇ DAY 14

Bahía Magdalena

Explore the ever-shifting sand dunes of Isla Magdalena on a cross-island walk to one of the most pristine beaches in the Pacific. Bird-watching can be excellent here, with abundant seabirds in action and shorebirds patrolling the beaches as they fatten up and prepare for long journeys to Arctic breeding grounds.

Meals included: breakfast, lunch, dinner

■ DAY 15

San Carlos / Disembark Ship / Loreto

Disembark in San Carlos after breakfast and transfer to Loreto. Schedules permitting, take the opportunity to visit the first mission in Baja California, as well as the nearby museum, to learn more about what makes this town so special. After lunch transfer to Loreto Airport for flights home.

Departure Time: Depart after 1:00 p.m. local time.

Departure City: Loreto, Mexico

Meals included: breakfast, lunch

The *National Geographic Venture* is a state-of-the-art expedition ship ideal for discovering remote locations in domestic waters.

Following the build of *National Geographic Quest* at Nichols Brothers shipyard, her sister ship the 100 guest *National Geographic Venture* floated into the bay on Whidbey Island, becoming the 4th ship in the Lindblad fleet built at this storied PNW shipyard. In the 1970s, Nichols Brothers built the twin ships *National Geographic Sea Bird* and *National Geographic Sea Lion*, which continue to sail the waters of the west coast of North America and Central America.

Venture, like much of the wildlife she follows, is migratory. She follows the seasons from Alaska, along the coast of British Columbia, up the Columbia & Snake Rivers, and along the Baja coast and into the Sea of Cortez. In each region, her design innovations were informed by 50+ years of expedition expertise to ensure extraordinary discoveries. Larger than her sibling twin ships, *National Geographic Sea Bird* and *National Geographic Sea Lion*, *National Geographic Venture* has the same shallow draft, enabling her to nimbly navigate the same inner reaches and provide the same intimate, 'insider' experiences of the charismatic regions we explore.

Like her sister ship *National Geographic Quest*, *National Geographic Venture* has dual boarding platforms, enabling our team to load two Zodiacs at once means guests get off ship quickly, to take advantage of wildlife sightings and maximize exploring time. Modern, cleaned-lined, with large expanses of glass to keep you connected to the extraordinary views, *National Geographic Venture* enables you to see, do and experience the best of her geographies.
