 DATES Jul	 DURATION 23 Days
 SHIPS <i>National Geographic Resolution</i>	
 STARTS AT Kangerlussuaq, Greenland	 ENDS AT Nome, Alaska

Itinerary note: 2025 Westbound is 23 days since it allows for a direct charter flight from Nome to Anchorage for immediate onward travel, while 2025 Eastbound is 24 days due to a necessary hotel night in Reykjavik, after the charter flight from Nuuk, before onward travel.

Highlights

- ★ Venture into the fabled Northwest Passage and learn dramatic stories of explorers and adventurers who sought this magnificent, icy frontier
- ★ Glide between soaring icebergs at the mouth of Greenland's Ilulissat Icefjord, a UNESCO World Heritage site
- ★ Visit one of Canada's "jewels of the north": Pond Inlet, a small Inuit community known for soapstone carvings
- ★ Observe polar bears, walrus, ringed seals, belugas, and bowhead whales—and, with luck, the elusive narwhal

Day by day

■ DAY 1

Boston, Massachusetts

Arrive in Boston, Massachusetts, and check into your hotel in the late afternoon. In the evening, join fellow travelers for a group dinner at the hotel.

Arrival Time: Arrive before 9:30 a.m. local time.

Arrival City: Boston, Massachusetts

Meals included: dinner

◇ DAY 2

Boston / Kangerlussuaq, Greenland / Embark Ship

In the morning, transfer by chartered aircraft from Boston to Kangerlussuaq on Greenland's west coast. Settle into your cabin and enjoy a scenic sailing through the dramatic gorge of the Kangerlussuaq Fjord, 120 miles in length, with its hanging glaciers and striking basalt ribbons.

Meals included: breakfast, lunch, dinner

◇ DAY 3

Greenland's West Coast and Sisimiut

Cruise the length of Kangerlussuaq Fjord en route to Sisimiut. Dozens of deep fjords carve into Greenland's west coast, many with glaciers fed by the ice cap that covers 80 percent of the country. At Sisimiut, a former whaling port, enjoy your choice of guided walks through the sights and sounds of the village, including Dog Town or Sallinnguit, a small island with centuries of history from Inuit culture through colonization and current day industry. In your free time, enjoy a local food tasting, visit the open-air museum, or explore the local artisan workshops.

Meals included: breakfast, lunch, dinner

◇ DAY 4

Disko Bay and Ilulissat

Sail into Qeqertarsuup Tunua, also known as Disko Bay, and be welcomed by floating icebergs calved off the world's most active glacier, Sermeq Kujalleq. Enjoy an extraordinary cruise aboard local boats among towering icebergs of the UNESCO World Heritage-designated Ilulissat Icefjord. Visit the town of Ilulissat and hike into the Sermermiut Valley, once an Inuit settlement and now home to a peaceful boardwalk overlooking the Icefjord. This evening, we sail away from the Greenlandic Coast and venture to the west and the Canadian Arctic.

Meals included: breakfast, lunch, dinner

◇ DAYS 5-7

Exploring East Baffin Island, Nunavut, Canada

We begin our exploration of the Canadian High Arctic with a visit to the small Inuit community of Pond Inlet, Nunavut. Explore some of the beautiful bays and inlets along Baffin Island's Lancaster Sound, a favorite Inuit hunting and fishing location for hundreds of years. Carved by Ice Age glaciers, Lancaster Sound is also the eastern gateway to the Arctic Archipelago, where European explorers like William Baffin first ventured in the 17th century to search for the Northwest Passage. Our days here are spent searching for ringed seals, arctic foxes, walrus, and polar bears, as well as beluga and bowhead whales. Visit Devon Island and take a walk with our ship's archaeologist to learn about the Thule people—ancestors of the modern Inuit—that once inhabited this region.

Meals included: breakfast, lunch, dinner

◇ DAYS 8-17

Exploring the Northwest Passage

Our ice-strengthened ship, *National Geographic Resolution*, navigates the Northwest Passage following nature's path—dependent on ice and weather conditions. Taking our cues from nature, we follow wildlife, stop for hikes on the tundra, or drop anchor in a beautiful fjord or an icy bay to explore and kayak beneath massive ice sculptures and soaring cliffs.

Along the way, explore ice-studded channels and glacier-carved islands that stretch for hundreds of miles—a stunning display of raw geology; survey the rocky, "Mars-like" terrain of uninhabited Devon Island; sail past the northernmost part of mainland North America in the Bellot Strait, one of the narrowest and most infamous of the passage; and cross the top of the Northwest Territory of Canada to search for ringed seals, arctic foxes, musk oxen, walruses, and polar bears, as well as beluga and bowhead whales.

History and culture are also on the itinerary. Learn about the Inuit peoples who have hunted and fished here for thousands of years. And hear heroic stories of the early explorers: Roald Amundsen, John Ross, William Edward Parry, and James Clark Ross, among others.

Meals included: breakfast, lunch, dinner

◇ DAY 18

At Sea

Indulge in *National Geographic Resolution's* many amenities as we continue along the shores of the Canadian High Arctic. Soak in the ship's infinity-style outdoor hot tubs, take in panoramic views from the rooftop observation deck, and enjoy talks from our onboard experts. Take time to reflect on the amazing wildlife and geology that have highlighted our journey so far.

Meals included: breakfast, lunch, dinner

◇ DAY 19

Herschel Island, Yukon Territory

Once a thriving whaling village off the coast of the Yukon Territory, Herschel Island is now classified as a Natural Environmental Park. The island protects the wildlife alongside the heritage of the Inuvialuit people and the whaling industry. As we wander through Herschel's historic dwellings, keep an eye out for the wildlife residents, which include bears, musk oxen, and arctic foxes. The area is also home to the largest colony of black guillemots in the Western Arctic.

Meals included: breakfast, lunch, dinner

◇ DAYS 20-22

At Sea

As we continue to sail westward along the northern coast of Alaska, reflect on our adventures while scanning the water for marine life and enjoying life on board. Take a yoga class, unwind with a massage in the wellness center, and curl up next to the fireplace in the library. Share images with our Lindblad Expeditions-National Geographic certified photography instructor, and marvel at footage captured by the ship's underwater camera. Our voyage culminates with a farewell dinner on board.

Meals included: breakfast, lunch, dinner

■ DAY 23

Nome, Alaska, U.S. / Disembark Ship / Anchorage

Arrive in the remote city of Nome, Alaska, on the coast of the Bering Sea. Enjoy breakfast and lunch on board. Disembark to explore the town prior to our flight to Anchorage. In Anchorage transfer to flights home.

Departure Time: Depart after 6:00 p.m. local time.

Departure City: Anchorage, Alaska

Meals included: breakfast, lunch

National Geographic Resolution

Guests 138	Cabins 76
----------------------	---------------------

The sister ship to *National Geographic Endurance*, she explores polar & temperate regions

Our second new polar build, *National Geographic Resolution*, is named to honor the second voyage of the legendary Captain James Cook.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. *Resolution's* most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside— with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
